Looking for fresh local produce during the long NH winter? Surowiec Farm is offering a new CSA during the months of November and December!

○ **Fresh! Quality!** ○

○ **Lots O' Greens! Root Crops! Apples! Squash!** ○

As the end approaches for Surowiec Farm's third successful summer CSA, we have decided to extend our CSA share program into the months of November and December. Surowiec Farm has been growing approximately 30+ types of greens in our unheated tunnels for several years. We have creative and unique salad and cooking blends which offer the consumer a touch o' green during the cold NH winter months. We store our own root crops and fresh picked apples, so you can enjoy the fresh harvested taste all season long.

Our November & December CSA will be eight weeks starting November 9th and ending December 28th. We are offering the same flexible choice program, which makes our program unique. Pick up will be on Saturdays at the farmstand from 10 to 2 pm. (optional snow days will be Sunday 10 to 2). We will have staff available during the pick up for questions and assistance. As always we try to remain flexible and if you have any specific questions please contact us at info@surowiecfarm.com
